

CLOVER CREEK TRAIL

Length: 3.6 miles

Summer Season: June-Oct.

Use: Moderate

Difficulty: Moderate

ACCESS:

This trail can be accessed by traveling west on Highway 66 from Klamath Falls towards Keno for approximately 9 miles. Turn right (west) onto the Clover Creek Road and continue 15.5 miles to Forest Road 3852. Turn right (northeast) on Forest Road 3852 and proceed 3.3 miles to the trailhead at the end of the road. A circular turn-around and pulloffs provide ample parking space.

ATTRACTIONS AND CONSIDERATIONS:

From the trailhead at an elevation of 5600 feet, the Clover Creek Trail winds through deep shady woods and small sunny clearings to Clover Creek. The trail then climbs along the meadows and ridges of the Clover Creek drainage to Clover Lake, a small but popular fishing spot off to the left of the trail. (Don't be tricked into thinking the first pond after crossing the creek is Clover Lake.) From Clover Lake, continue on for about 1 mile and the trail joins the Mountain Lakes Loop Trail at an elevation of 7000 feet. The wet meadows, streambanks, and lakeshores are beautiful settings which require the practice of minimum impact visitation to endure; please adhere to the regulations provided on page 21 of this handout.
